

SUCCESS STORY

Client Name: Suyash Engineering and Metal Pressings Pvt.Ltd.

Project : SAP Business One Implementation

Company Profile:

Suyash Engineering Works was established in the year 1987 in Ahmednagar with the main aim of supplying sheet metal pressed components and assemblies to the auto and electrical industries.

In its journey in pursuit of excellence Suyash Engineering Work developed into a full-fledged manufacturing unit, evolving itself from a press shop to a modern manufacturing facility having in-house tool room and CNC for speedy development. This transformation was done under the able guidance of Mr. Abhay Y. Mestry, owner who always strove for excellence.

M/s. Suyash Metal Pressings Pvt. Ltd., was performed in 1997 to support the growing expectation of the valued customers who had shown their confidence in us..

The plant II is 100% EOU where they manufacture Turbocharger parts & Fuel System parts
